

COVID-19 FAQ

1. *Our ambulance service is due to revalidate with Medicare. Will my due date be extended?*

Date added: 3/24/20

Answer: Yes. CMS is temporarily ceasing revalidation efforts for all Medicare providers or suppliers. Once the lifting of the public health emergency occurs, CMS will resume revalidation activities. Specific information from CMS on this postponement can be found [here](#).

Remember, ambulance services must generally revalidate their enrollment information every five years. CMS sets every provider's revalidation due date at the end of a month and posts the upcoming due dates six to seven months online. You can search for the latest Medicare revalidation information [here](#).
