

COVID-19 FAQ

15. Can an assisted living facility, or other health care facility, require EMS providers to fill out a questionnaire before allowing entry to their facility?

Date Added: 03/30/20

Answer: Yes, a health care facility is permitted to require EMS providers to complete a reasonable questionnaire related to COVID-19 symptoms to help prevent the spread of the illness in their facility. However, the questionnaire must be limited to COVID-19 specific symptoms or sequelae.
