# Sample Ambulance Signature Form – Version 2.1

**Patient Name:** ____________________________  **Transport Date:** ____________________________

**Privacy Practices Acknowledgment:** by signing below, the signer acknowledges that [ABC Ambulance Service (ABC)] provided a copy of its Notice of Privacy Practices to the patient or other party with instructions to provide the Notice to the patient.

*A copy of this form is valid as an original*

---

**SECTION I - PATIENT SIGNATURE**

The patient must sign here unless the patient is physically or mentally incapable of signing. 

NOTE: If the patient is a minor, the parent or legal guardian should sign in this section.

I authorize the submission of a claim to Medicare, Medicaid, or any other payer for any services provided to me by [ABC] now, in the past, or in the future, until such time as I revoke this authorization in writing. I understand that I am financially responsible for the services and supplies provided to me by [ABC], regardless of my insurance coverage, and in some cases, may be responsible for an amount in addition to that which was paid by my insurance. I agree to immediately remit to [ABC] any payments that I receive directly from insurance or any source whatsoever for the services provided to me and I assign all rights to such payments to [ABC]. I authorize [ABC] to appeal payment denials or other adverse decisions on my behalf without further authorization. I authorize and direct any holder of medical, insurance, billing or other relevant information about me to release such information to [ABC] and its billing agents, the Centers for Medicare and Medicaid Services, and/or any other payers or insurers, and their respective agents or contractors, as may be necessary to determine these or other benefit decisions on behalf of the patient.

*If the patient signs with an “X” or other mark, a witness should sign below.*

<table>

**Witness Signature**

**Patient Signature or Mark**

**Witness Address**

---

**SECTION II - AUTHORIZED REPRESENTATIVE SIGNATURE**

Complete this section only if the patient is physically or mentally incapable of signing.

On the line below, explain the circumstances that make it impractical for the patient to sign:

I am signing on behalf of the patient to authorize the submission of a claim to Medicare, Medicaid, or any other payer for any services provided to the patient by [ABC] now or in the past, (or in the future, where permitted). By signing below, I acknowledge that I am one of the authorized signers listed below. **My signature is not an acceptance of financial responsibility for the services rendered.**

Authorized representatives include only the following individuals:

- [ ] Patient’s legal guardian
- [ ] Relative or other person who receives social security or other governmental benefits on behalf of the patient
- [ ] Relative or other person who arranges for the patient’s treatment or exercises other responsibility for the patient’s affairs
- [ ] Representative of an agency or institution that did not furnish the services for which payment is claimed (i.e., ambulance services) but furnished other care, services, or assistance to the patient

<table>
<thead>
<tr>
<th>Representative Signature</th>
<th>Date</th>
<th>Printed Name and Address of Representative</th>

<tbody>
<tr>
<td>X</td>
<td></td>
<td></td>
</tr>
</tbody>
</table>

---

**SECTION III - AMBULANCE CREW AND RECEIVING FACILITY SIGNATURES**

Complete this section only if: (1) the patient was physically or mentally incapable of signing, and (2) no authorized representative (Section II) was available or willing to sign on behalf of the patient at the time of service.

**A. Ambulance Crew Member Statement (must be completed by crew member at time of transport)**

My signature below indicates that, at the time of service, the patient was physically or mentally incapable of signing, and that none of the authorized representatives listed in Section II of this form were available or willing to sign on the patient’s behalf. I am signing on behalf of the patient to authorize the submission of a claim to Medicare, Medicaid, or any other payer for any services provided to the patient by [ABC]. **My signature is not an acceptance of financial responsibility for the services rendered.**

On the line below, explain the circumstances that make it impractical for the patient to sign:

- Name and Location of Receiving Facility: __________________________________________________________
- Time at Receiving Facility: ____________________________

<table>
<thead>
<tr>
<th>Signature of Crewmember</th>
<th>Date</th>
<th>Printed Name and Title of Crewmember</th>
</tr>
</thead>
<tbody>
<tr>
<td>X</td>
<td></td>
<td></td>
</tr>
</tbody>
</table>

**B. Receiving Facility Representative Signature**

The patient named on this form was received by this facility on the date and at the time indicated above. I am signing on behalf of the patient to authorize the submission of a claim to Medicare, Medicaid, or any other payer for any services provided to the patient by [ABC]. **My signature is not an acceptance of financial responsibility for the services rendered.**

<table>
<thead>
<tr>
<th>Signature of Receiving Facility Representative</th>

Fall 2013

Hershey® Lodge & Convention Center

Accredited Educational Content from the Leaders in Ambulance Billing and Compliance Training

abc³:
Oct 23-24, 2013

Pre-Conference Workshops
PWW Executive Institute:
Oct 22, 2013
CAC Live:
Oct 20-22, 2013

100% con ed approved!

All new content!

We make a tough subject interesting, informative, and FUN!

www.abc3conference.com
What’s NEW for Fall

• abc³ Consultation Clinic for one-on-one Q&A with PWW attorneys and consultants

• Coverage of ICD-10 codes to help you prepare for the 2014 deadline

• Basic and Advanced Tracks

• All new session content

This conference is a must attend!

This is the best conference for ambulance billing.

abc³ Consultation Clinic
A benefit you’ll find only at abc³ — on both days of the conference, a special booth — the abc³ Consultation Clinic — will be staffed with PWW attorneys and consultants to answer your questions one-on-one. A schedule will be posted at the conference. First come, first served!

abc³ is the only national ambulance billing conference that is approved for continuing education credits by both the National Academy of Ambulance Coding (NAAC) and the American Academy of Professional Coders (AAPC).

Spend your training dollars wisely — make sure the certificate you get for attending a conference actually counts — it does at abc³!

abc³ fulfills all the continuing education requirements for annual CAC recertification!
Become a Certified Ambulance Coder in three days!

CAC Live tuition: $995 Per Person
Hershey® Lodge, Hershey PA
October 20 – 22, 2013
Day 1: 9:30am – 6:15pm Day 2: 8:00am – 6:00pm
Day 3: 9:00am – 5:00pm

Tuition includes enrollment fee, course materials, tuition and examination fees. Class times subject to change.

Learn from the experts in a fast-paced classroom environment. Following successful completion of the final exam, to be administered at the end of the course, you’ll be certified on the spot as a Certified Ambulance Coder. Plus, complete your first year continuing education requirements by attending the abc³ conference!

Certified Ambulance Coders pave the road to compliance.

Visit www.AmbulanceCoding.com for more information.

SEE THE FUTURE – AND SEIZE THE DAY

As national EMS attorneys and consultants, we work with a broad array of EMS systems across the country, and deal with the state and federal agencies throughout the United States that affect our industry on a daily basis. This gives us an unparalleled perspective on the industry, and in this eye-opening general session, we’ll share our insight on what the future holds. More importantly, we’ll tell you what we think EMS agency leaders need to be doing right now to proactively position their organizations to thrive in a rapidly changing healthcare environment. You’ll leave this session with an entirely new perspective on the delivery of EMS and mobile healthcare.

HEALTHCARE REFORM GENERAL SESSION – HOW TO MAKE ACOs WORK FOR YOU

Accountable Care Organizations (ACOs) are one of the emerging centerpieces of the Affordable Care Act (Obamacare). This session will explain ACOs and discuss the opportunities for EMS agencies to integrate themselves into this new approach to coordinated care. We’ll “follow the money” and identify how ACOs are structured, funded and how they pay providers. We will explore the critical elements that must be addressed in establishing “win-win” contracts with the ACOs in your area that will make your agency a key player in this new realm of healthcare delivery and reimbursement.

BREAKOUT SESSION 1 – CHOOSE HR, HIPAA OR COMPLIANCE

HR Breakout – Building Leaders From the Inside Out

One of the top challenges faced by so many EMS agencies is the recruitment of effective leaders to guide their organizations to success — especially in a rapidly-changing healthcare environment. Why not look within for your next generation of leaders? In this session, Steve Wirth, himself one of the nation’s most experienced EMS leaders (and this year’s winner of the Jems/James O. Page Leadership Award) will describe how to cultivate the leadership abilities of the people you already have. This session will also address how developing leadership skills can help your people “take ownership” of their responsibilities, improve their judgment, sharpen their decision-making skills, and boost overall morale.

HIPAA Breakout – The Privacy and Security Risk Analysis: A Soup-to-Nuts Game Plan

The number of HIPAA complaints and investigations is skyrocketing under the new privacy and security regulations. One of the first things that happens in an enforcement investigation is the government’s request for your agency’s HIPAA

Executive Institute is a valuable EMS resource. Great information for both new and seasoned executives.

I appreciate the opportunity to get together with peers and EMS experts to learn more about changes and key concerns in the industry and how to address them.

My organization has been attending XI since the beginning and we have ALWAYS come away with practical tools that can be implemented right away - Thanks!
risk analysis. Yet, most EMS agencies haven’t done one. It’s not too late. This session will cover everything you need to know about how to perform — and document — the required privacy and security risk analysis. Exclusive for XI participants – you’ll also receive an electronic version of the PWW HIPAA Risk Analysis Template that you can use to guide you in the process, and document your performance of this mandatory HIPAA obligation.

**Compliance Breakout – Write Your Agency’s Compliance Plan**

You know your EMS agency needs a good, written compliance plan. So let’s stop messing around. We’ll go through every necessary element of an ambulance compliance plan, step-by-step, and tell you how a plan should be customized for your agency’s needs. No theoretical concepts here — just the information you need to know to tailor a compliance plan for your agency — and to be able to put it into place without delay.

**BREAKOUT SESSION 2 – CHOOSE HR, HIPAA OR COMPLIANCE**

**HR Breakout – Managing the New Electronic Workplace – Social Media and Beyond**

You’ve heard the saying, “it’s a jungle out there.” That certainly applies to today’s electronic workplace. With a wide variety of electronic devices at their disposal almost 24 hours-a-day, the untamed use of social medial by one of your agency’s staff members can easily lead to a careless or malicious post or tweet that can derail your agency’s reputation in an instant. This session will address how to properly — and legally — regulate employee social medial activity, both on and off-duty. We’ll also cover how to respond to — and effectively manage — the impending media disaster that is sure to come your way when social media jeopardizes your agency’s public image.

**HIPAA Breakout – Dealing with Requests for Patient Information From Law Enforcement, Attorneys, Family Members, and Others**

Almost every EMS agency faces a daily challenge when they interact with the police and other law enforcement agencies who demand patient information from your organization or your crew members. Another common situation is dealing with attorney requests for patient information. Ambulance services also have to field requests from patients, family members, personal representatives and others. This session will cut through some of the fog that has fallen over these areas of HIPAA compliance, and tell you exactly in which circumstances you can release PHI to law enforcement officers, attorneys, patient representatives, and others. We’ll also tell you how to properly document those disclosures so they can’t come back and bite you down the road.

**Compliance Breakout – Where Compliance Meets QI: Implementing Compliance Performance Indicators**

Most EMS agencies have a robust Quality Improvement (QI) process. And some agencies have good compliance programs in place. But we’ve found that most EMS agencies haven’t effectively closed the loop between QI and compliance. This session will explore the importance of connecting your compliance activities to your QI program, and how you can make compliance an integral part of everyone’s job. We’ll tell you how to implement critical Compliance Performance Indicators into your agency’s QI program and make it focus on more than clinical care alone.
HEALTHCARE REFORM GENERAL SESSION – SHEDDING LIGHT ON THE DARK SIDE OF COMMUNITY PARAMEDICINE – COMPETITION, REIMBURSEMENT AND LIABILITY

EMS agencies nationwide are gearing up full bore to deliver mobile healthcare through the Community Paramedicine (CP) model — but some have not fully considered all the consequences. While much has been put forth on getting CP programs started, scant attention has been paid to the “dark sides” of Community Paramedicine — dealing with competition from other healthcare organizations, the lack of a traditional reimbursement stream, the limitations of state scope of practice rules, and the potential for new legal liability issues. PWW is uniquely positioned to shine the light on these critical, but as-of-yet mostly unexplored aspects of CP programs that must be dealt with effectively to ensure long term success. Before your agency dives head first into the CP ocean, be sure you are prepared for the long swim by attending this critical session.

CLOSING GENERAL SESSION – KEEPING THE COMPETITIVE EDGE THROUGH COST ANALYSIS

Whether public, private or non-profit, independent or hospital-based, all EMS agencies need a firm grasp on their costs, both from a management and a compliance perspective. With attorneys, reimbursement consultants, and now a CPA on staff, PWW has developed a comprehensive approach for EMS agencies to perform a defensible cost analysis that can actually help you gain an edge over the competition. This session will explain the importance of a cost analysis, the intervals at which one should be conducted, and recommended approaches for completing — and documenting — this important financial and compliance exercise.
Hotel Accommodations

Hershey® Lodge
325 University Drive
Hershey, PA 17033
717-533-3311 or 800-533-3131
www.hersheylobby.com

Hotel Information: Hershey® Lodge is a full-service resort located in Hershey, Pennsylvania. Warm, welcoming, and distinctly Hershey, Hershey Lodge offers convenience and comfort for families and guests of all ages. Guests will discover the hallmark friendly service in every detail.

Known as The Sweetest Place on Earth, Hershey, Pennsylvania is a year-round destination with a wide array of attractions. Hershey was rated a top family vacation spot by Smart Money and FamilyFun magazines.

Hershey is conveniently located in Central Pennsylvania, just 90 minutes from Baltimore and Philadelphia, 2 hours from Washington, DC, and 3 hours from New York City.

Reservation Deadline: September 20, 2013

Special abc³ rate: $170/night. Be sure to mention abc³ to receive this special rate!

Day One – Wednesday, October 23, 2013

abc³ “CORE CONTENT” PART 1 – MEDICARE AND REIMBURSEMENT ISSUES

This year’s abc³ Update happens over two separate days. In this first session, we’ll present the ever-popular Medicare and Reimbursement Update. This critical session is one of the annual centerpieces of abc³ — featuring complete and up-to-the-minute coverage of all the important developments that affect your agency’s billing and reimbursement. You simply can’t afford to miss this critical, comprehensive and timely update on the latest reimbursement changes that will bring your agency up to speed on the key “pocketbook” issues you need to know about.

DAY ONE MORNING BREAKOUT SESSIONS – CHOOSE BASIC OR ADVANCED TRACK

Basic Billing Breakout – Dealing with Documentation Conflicts
What happens when you’re faced with inconsistent documentation? What do you do when the dispatch documentation says one thing, the PCR says something else, and the PCS or facility records say something entirely different? Conflicts in documentation can have many root causes, and we’ll explore those, and give you workable strategies for dealing with discord in the multiple sources of documentation you need in the billing process.

Advanced Billing Breakout – Advanced Internal Auditing
With the healthcare enforcement terrain more treacherous than it’s ever been, every ambulance service and billing company needs to incorporate a highly-functional internal auditing process into their compliance programs. This session will cover specific internal auditing practices your agency can implement immediately.

CODING CLINICS – DAY ONE (ICD-9)

Emergency Coding Clinic
Non-Emergency Coding Clinic
The abc³ Coding Clinics are hands-on, practical skill-building exercises designed to sharpen your understanding and application of Medicare rules as we “walk through” the documentation for a wide range of ambulance claims from the typical case to the unique and unusual. Whether you’re a seasoned biller, a new biller, a compliance officer or a manager/executive who wants to gain a better understanding of the nuts and bolts of billing, the abc³ Coding Clinics are eye-opening ways to enhance your critical thinking skills when preparing, reviewing or auditing ambulance claims — or simply knowing what’s going on in your agency’s billing office.

ICD-10 IMPLEMENTATION – A COMPREHENSIVE GAME PLAN

With ICD-10 implementation currently set for 2014, this will be the last Hershey
abc³ conference before the scheduled compliance date. At abc³, we’re focusing hard on ICD-10 at this year’s conference to give you all the tools you need to prepare for this deadline. This session will review the nuts and bolts of ICD-10 implementation, and will cover important issues such as staff training, ICD-10 resources, electronic testing, working with your software vendors and clearinghouses, code selection and more.

Day Two – Thursday, October 24, 2013

abc³ “CORE CONTENT” PART 2 – HIPAA PRIVACY AND SECURITY
The annual abc³ Update continues, with in-depth coverage of the newly-implemented HIPAA Privacy and Security Rules. This session will cover the required changes to privacy notices and business associate agreements, rules on releasing PHI, your agency’s breach notification obligations, and much more.

abc³ “CORE CONTENT” PART 3 – HEALTH CARE REFORM
Part 3 of the annual abc³ update will provide a complete overview of the current issues facing EMS agencies with full implementation of Obamacare happening in a few short months. Health care reform is revolutionizing the way we will get paid, and this session will address these and other major changes that will impact your agency directly. We’ll cover employer obligations, insurance exchanges under the insurance mandate, Medicaid expansion and much more.

DAY TWO MORNING BREAKOUT SESSIONS – CHOOSE BASIC OR ADVANCED TRACK

Basic Billing Breakout – Properly Using Dispatch and Call Intake Information for Billing
Proper coding of ambulance claims for many levels of service requires a proper understanding and application of dispatch and call intake. That information must be available in the ambulance billing process to code properly and effectively. This session will address the proper use of emergency dispatch protocols and non-emergency call intake and effective use of the information in the billing process.

Advanced Billing Breakout – Applying Clinical Protocols in the Billing Process
What can make the difference between an ALS2 claim and an ALS1 claim? Your agency’s clinical protocols. Did you know that your system’s protocols can also affect the difference between what is considered ALS and BLS? And local protocols can also determine what procedures are beyond the scope of a paramedic for proper coding of Specialty Care Transports (SCTs) under Medicare rules. This session will offer a detailed look at the interaction between clinical protocols and proper billing — and help you make the most of these often-confusing principles.

CODING CLINICS – DAY TWO (ICD-10)

Emergency Coding Clinic

Non-Emergency Coding Clinic

Day Two of our popular abc³ Coding Clinics will follow the same practical “claim analysis” format you know and love, but on Day Two we’ll use ICD-10 codes to help get you ready for the 2014 deadline.

abc³ FAMILY FEUD
There is no better way to wrap up your conference experience than with an entertaining session that reinforces the critical ambulance billing and compliance concepts you’ve learned at abc³. This time, we shake things up and bring your two favorite attorneys into the heart of the action! Game show host extraordinaire Ryan Stark will facilitate the ‘Feud’ and have a few tricks up his sleeve. Everyone will play along as the Wolfberg “Family” and the Wirth “Family” compete head-to-head to find out who will reign supreme atop the mountain of ambulance billing and compliance knowledge.
WHAT IS THE DRESS CODE?
Attire for the conference is business casual. We strongly recommend that you bring a sweater or a light jacket along with you, as conference rooms tend to be on the cool side.

WHAT MEALS DO I RECEIVE WITH MY abc3 AND XI REGISTRATION?
A continental breakfast, delicious lunches, and morning and afternoon coffee and soda breaks are included in your abc3 and XI registration.

WILL I RECEIVE HANDOUTS?
Approximately one week prior to the start of the conference, you will receive an email notice with a link to download the handouts for the conference. You may print out the handouts or you may save them to a laptop or tablet and bring them along — we will even provide a power source.

WHAT IS THE CANCELLATION POLICY?

Attendee Refund/Cancellation Policy: Full refund if cancellation is received 45 days prior to event. $75 fee per person for cancellations received 15-44 days prior to event. No refunds for cancellations received less than 15 days prior to event. Registrations are transferable within the same company.

PWW Refund/Cancellation Policy: Page, Wolfberg & Wirth, LLC reserves the right to cancel any event due to inclement weather or any situation which would make the event non-viable. If Page, Wolfberg & Wirth, LLC cancels an event, participants will be offered a full refund. Should circumstances arise that result in the postponement of an event, registrants will have the option to transfer registration to the same event at the new, future date. Page, Wolfberg & Wirth, LLC accepts no responsibility for travel arrangements or any other actual or perceived loss due to cancellation of conference.

No Show Policy: Registrants who are “no-shows” for an event will not qualify for a refund.

abc3 Bash
October 23: 7:00 pm – midnight

The abc3 Bash is a blast! A great way to unwind and network.
abc³ is the only ambulance billing conference that keeps you current all year! If you register by the Early Bird Deadline, you will receive three (3) FREE abc³ Update Webinars during the coming year!
